

# Golden Thread of EXPERT Learning

What subject are you becoming more of an  
EXPERT in?

How does this link back to previous learning?

What does this remind you of?

Where have we used some of this key vocabulary before?

Where might this be relevant in your life?

How might this be useful in the future? What about jobs?

What is the point of learning this?

Are there specific famous people, landmarks,  
events.... that have been influenced by or  
influenced this learning? *(Cultural Capital)*
